

La prospettiva di questa presentazione

Prompt: I will give a presentation about the impact of AI on our world and on our human society. I will present the uses of AI and some new trends and perspectives on its usage. So the point of view is that of an observer who looks at the input-output behaviour of a generic AI, without looking at its inner working principles. Create an illustration that conveys this message.

GPT-4o mini:

Prompt: A human observer looks at the input-output behaviour of a generic AI, without looking at its inner working principles.

Flux Dev finetuned model da <https://app.leonardo.ai> : A bespectacled human observer, with a curious expression and a slight furrowed brow, intently gazes at a futuristic AI system's sleek, silver interface, displaying a mesmerizing array of colorful graphs, charts, and algorithms, while deliberately avoiding the intricacies of its complex inner mechanisms, focusing solely on the tangible input-output interactions, with a soft, ambient glow illuminating the surrounding minimalist laboratory setting, devoid of clutter, and a subtle gradient of blues and whites accentuating the observer's white lab coat and the AI's metallic surface.
